Microsoft Curriculum: Sales Tips

Course 80018: Fixed Assets in Microsoft Dynamics® AX 2009

Course description

The two-day course, Fixed Assets in Microsoft Dynamics® AX 2009 examines the Fixed asset functionality in Microsoft Dynamics AX 2009, and teaches students how to use the Fixed Assets functionality in the application. The course focuses on the various setup requirements for Fixed Assets, transactions, and reports and inquiries.

Selling proposition

Learn to track and manage your company's fixed assets, to quickly record acquisitions and disposals, to depreciate and adjust the value of assets, and to access quick, accurate information about the value and status of each asset.

Audience

This course is intended for individuals on the implementation team, administrating or using the Fixed Assets and Financial management modules in Microsoft Dynamics AX 2009. This audience typically includes individuals who are tasked with assessing a customer's business needs and advising them on the use, configuration and customization of the application. Additionally, individuals responsible for training or supporting Microsoft Dynamics AX 2009 benefit from this course.

Primary course benefits

The course completion objectives are for students to obtain:

- Hands-on experience in setting up and managing Fixed Assets in Microsoft Dynamics AX 2009.
- The opportunity to practice recording Fixed Assets transactions.
- Exposure to real-world scenarios from customer engagements.

Prerequisites

- Introduction to Microsoft Dynamics® AX 2009, Financials I in Microsoft Dynamics® AX 2009, Financials II in Microsoft Dynamics® AX 2009, or equivalent knowledge of Microsoft Dynamics AX 2009 processes.

About the technology

Microsoft Dynamics® AX 2009 is a comprehensive business management solution for mid-sized and larger organizations that works like and with familiar Microsoft software to help your people improve productivity. Microsoft Dynamics AX is built to help companies (or you) do business across locations and countries by consolidating and standardizing processes, providing visibility across your organization, and helping to simplify compliance. With Microsoft Dynamics AX, you can be confident your business management solution is, and will continue to be, relevant to the needs of your people and the demands of your industry and business.

Microsoft Dynamics AX is optimized to work with the following Microsoft technologies:

- **Operating system platform:**

Client operating system: Windows Vista® Business Edition, Ultimate Edition, or Enterprise Edition, Service Pack 1

-or-

Windows® XP Professional Edition, Service Pack 2

Server platform: Windows Server® 2003 with Service Pack 2, Standard Edition, Web Edition, Enterprise Edition, or Datacenter Edition

-or -

Windows Server® 2008 Standard Edition, Enterprise Edition, Web Edition, or Datacenter Edition

- **Database platform:**

Microsoft® SQL Server 2005®, Standard or Enterprise editions, with Service Pack 2 or later

- or-

Oracle Database 10g R2, Enterprise and Standard
